

Urinal Services

 beehiveplumbing.com/urinal-services/

Urinals can break down at any hour of the day, which can be more than just inconvenient for both private and public businesses. **Count on Beehive Plumbing for 24/7 support when you need it the most!** We not only do *urinal repairs*, but *urinal installation* and *urinal replacements* for the people of Park City, Provo, Ogden, and the surrounding areas in Utah. ***Our work is on time, done right, and comes with a satisfaction guarantee.*** Tell us more about how we can serve you during our ***free consultation!***

Commercial Urinal Repair

If you have a urinal in your business that is malfunctioning, *contact plumbing experts at Beehive Plumbing right away*. A broken urinal can turn customers off or inspire employee complaints that are best taken care of as soon as possible. Major leaks can shut down entire bathrooms, which is definitely something no property or business owner wants to deal with. Beehive's *expertise* ranges from the extremely common to the unexpected. ***Common problems people encounter with urinals that need to be repaired include:***

- Clogged urinal drain holes
- Leaks
- Low water pressure when flushing
- Odd noises that signify a clogged water line
- Consistent water flow
- Strong, reoccurring odors

If any of these problems seem familiar to you, the time to get them diagnosed and repaired is now. If they're left untreated, repair or replacement costs are only likely to climb. To keep the bathrooms in your establishment running smoothly, ***use Beehive's plumbing services to find and fix the problem quickly to ensure everyone can use your facility without interruption.***

Commercial Urinal Installation

At Beehive Plumbing, we expect our urinals to last, so we only offer the *best in quality* for our customers. Industry leaders like [American Standard](#) and [Mansfield](#) use the most advanced available technology on the market for functional urinals that look great in any establishment. We can even install *waterless urinals* from the top brands to *save you even more on your water bills*. The sealant on the urinals can *save hundreds of thousands of gallons of water a year*.

Commercial Urinal Replacement

Whether your urinal is constantly breaking down, you want something more *environmentally friendly*, or it just looks old, ***Beehive has the Utah plumbers you need*** to replace it. Regardless of what your needs are, we're here to ensure that your *maintenance efforts are low* and your *water conservation is high*. We look to find the *best possible*

performance based on the nature of your business.

Commercial Locations for Urinals: Where We Work

Not only do **urinals conserve water to help the environment**, they also **save businesses on their utility bills**. Urinals also **don't take up as much space** as toilets do, meaning *shorter lines* and *happier customers*. If you need *installation, replacement or repair*, **Beehive Plumbing** services works wherever you are:

- Restaurants, cafes, banquet halls
- Malls or shopping plazas
- Hospitals
- Dental or doctor offices
- Retail stores
- Nursing homes or senior centers
- Community or event centers
- Apartment complexes
- Schools and universities
- Hotels and motels
- Managed living facilities
- Movie theaters

For those who own or run commercial buildings of any kind, **look to Utah's plumbing professionals at Beehive Plumbing for the repairs you need**. We work in every kind of space, whether it's a single-person bathroom at a small cafe or a multi-person bathroom in a huge stadium, we've got you covered!
